Grading Scale

Students who average 70% or above (A, B, C) will earn a grade of Satisfactory, or "S," while those who average below 70% will earn a grade of Unsatisfactory, or "U."

Determination of Final Grade

Since this is an NCBO and not a credit course, the S/U grading system is appropriate to determine students' college readiness for ENGL 1301. Students who pass the co-requisite ENGL 1301 course while earning a U in this course are considered college-ready and TSIA-compliant.

Students who receive a U and do not successfully pass ENGL 1301 must repeat both courses in the future to earn credit toward their degree plans for ENGL 1301.

*** DISRUPTIVE BEHAVIOR***All student are expected to help create an environment conducive to effective teaching and learning for all participants. Behavior that disrupts teaching and learning is unacceptable; accordingly, all face-to-face or online interactions should be civilized, respectful, and relevant to the topic.

Diverse opinions and engaging argumentation are critical to the higher learning endeavor, but inappropriate behavior that disrespects others or inhibits others from learning will result in removal from the class and/or course. Serious or habitual offenses may result in a referral to the appropriate departments.

All of the writing in this class must be written by the student enrolled in the class without any outside help. Plagiarism policy will be discussed in detail in class; a first offense will result in a 0 grade for the assignment, and a second offence will result in failure of the course. Ignorance is not a defense.

The Plagiarism Contract will be read aloud in class and signed by each student who verifies he/she knows exactly what plagiarism is and the consequences if it is committed. Plagiarism is a serious offense and will be dealt with as such. Artificial Intelligence (AI) is considered unethical unless the source is stated.

Rules for Ethical Use of AI in College English Class and Avoiding Plagiarism written by ChatGPT

1. **Originality and Attribution:** All work submitted must be original and created by the student. When using AI or any other technology, proper attribution must be given to the sources, tools, or models utilized in the creation of the work.
2. **No Automated Content Creation:** *Students are not allowed to use AI or any automated content generation tools to produce entire essays, papers, or assignments. The use of AI to write complete pieces is considered plagiarism and academic dishonesty.*
3. **Prohibited AI Applications:** Students may not use AI tools or language models to paraphrase or rewrite existing works, including published articles, essays, or academic papers, without proper citation and permission.
4. **AI as a Supportive Tool:** While students are encouraged to leverage AI for research, language checking, grammar correction, and idea generation, AI should only be used as an aid, not as a substitute for the student's own critical thinking and creativity.
5. **Understanding the AI Output:** If students use AI-generated content as part of their research or writing process, they must thoroughly understand the material and be able to explain it in their own words.
6. **Cite AI Tools and Models:** When referencing or discussing AI models or tools in your assignments, provide proper citations and acknowledge the specific resources used.
7. **Avoid Plagiarism of AI-Generated Content:** If AI-generated content is used in an assignment, ensure that it is properly paraphrased, cited, and integrated into the overall context of the work.
8. **Individual Work Requirement:** Collaboration and discussion are encouraged, but each student must submit their own original work. Sharing or copying AI-generated content between students is considered plagiarism.
9. **Consult with the Instructor:** If you are unsure about the ethical use of AI in a particular assignment, consult with the instructor beforehand to get clarification and guidance.
10. **Educational Purpose Only:** The use of AI tools should be solely for the purpose of improving writing skills, learning, and enhancing the educational experience. Exploiting AI for unfair advantages is strictly prohibited.
11. **Regular Plagiarism Rules Apply:** *The college's standard plagiarism policies and penalties apply to any instances of AI-related plagiarism. Consequences may (most likely WILL) include failing the assignment, course, or facing disciplinary action. Ignorance is NOT a defense.*
12. **Continuous Learning:** Students are encouraged to stay informed about ethical considerations related to AI usage, plagiarism guidelines, and the college's policies on technology and academic integrity.

Remember, the primary goal of using AI in the English class is to enhance learning, creativity, and critical thinking. Ethical use of AI tools will not only protect students from academic misconduct but also contribute to their academic growth and development as responsible scholars.
